

# ALBUMS

*Premium Leather*

The classic beauty of our premium leather album covers comes from the highest quality imported leathers and single piece construction. Since these one-piece covers are custom hand-made when you place your order, they take a bit longer - but they are worth the wait! (Sample shown with optional spine hubs and wood block spine.)

# ALBUMS

*Genuine Leather*

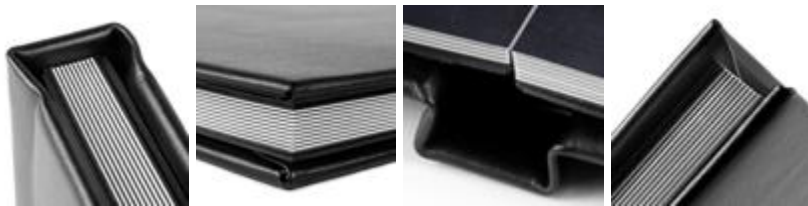

Genuine leather album covers are assembled from three individual pieces; front cover, back cover and spine. This three-piece construction method allows us to offer you an economical, quick-turn, yet customized album that frees you from having to design within a set number of required pages. You decide the number of pages you want and we can custom order it!

# ALBUMS

*Economy*
